

1.3.05

Dear Sascha,  
Peace!

Thanks a lot for your kind letter dated 13.2.05 and for all the information in your letter. I am fine. I am sure that you are also keeping in good health. Already I have visited Cuddalore and Pondicherry several times to know the real situations of the Tsunami affected people. Now I am in touch with the government people and let you know soon where will be the execution of our project. Mostly it will be in Cuddalore. Otherwise it will be in Pondicherry area. After the selection of the area the details you need can easily be furnished.

To speak in clear terms to the Tsunami affected people I must know how much for what project. Then only it becomes easier for me to frame the project – namely how many houses for a year, or other project like school building or a community hall, or a study center. Kindly tell me approximately how much money the group will be able to support for housing project for one year? When I know this particular I limit the selection of houses – namely how many houses per year!

Permanent this third group can remain to support housing projects, not on a big scale but on a small scale like 5 houses per year, after the support for three years for Tsunami affected people. It all depends upon their interest.

Dear Sascha, it would be much better you can involve some company or organisation to support the Tsunami project. The prices are going up every day.

I shall ask you, when everything is ready to transfer the amount to Pondicherry Bank – you please ask our Friedl, he will give you the account no. in Pondicherry South Indian Bank. You should mention that this money is for TSUNAMI PROJECT. It becomes easier to tell the government officials regarding the account system.

As per your instruction everything will be furnished in the account and once a three months you will know the condition and the balance of the account for the amount we received from you. As you have said, we will decide what to do for the affected people.

Kindly give my thanks to all those who support this project and my special thanks to your sister and to the American Football & Basketball teams and also to your parents and Tina.

With kind regards

Don Bosco
